18h00-18h30	Dinner (on your own)				
18h30-19h00					
19h00-...	Ice-Breaker & Pizza				

GENERAL INFORMATION

For the ones departing from Montreal on Sunday September 15th:

The meeting point is at the Jeanne-Mance and av. du Président-Kennedy corner slightly behind the Président-Kennedy building (201 av. du Président-Kennedy; see the yellow star on figure below) at 10:00 am on Sunday, September 15th. There will be 3 minivans picking you up.

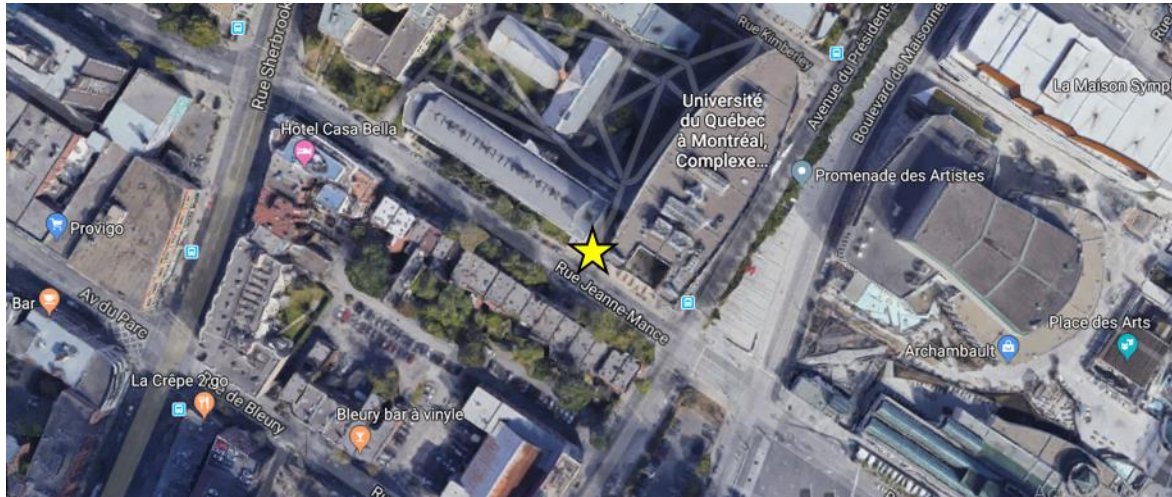

Figure 1: Map of the meeting point location for the group departing from Montreal on Sunday, September 15th

For the ones landing in Mont-Joli on Sunday September 15th:

The students participating in the 2019 ArcTrain Summer School will pick you up at 17:00 as they will already be in the area. In the case they do not make it in town on time, sharing a taxi from Mont-Joli to Rimouski is the best option. It is a 30 minutes car ride.

Figure 2: Map of Rimouski with main attractions

Accommodation:

We will be staying at the Hôtel Gouverneur Rimouski (55 Boulevard René Lepage E, Rimouski, QC G5L 1P2). The breakfast is included and will be served at 8:00 am at the hotel. You can easily walk from the hotel to the *Institut des Sciences de la Mer de Rimouski* (ISMER) where the meeting takes place. It is a 15 minutes' walk (see figure 2).

Meals:

As indicated previously the breakfasts are served at the hotel at 8:00 am. The lunches will take place at the UQAR cafeteria, you will be given coupons on Monday. Most of the dinners are on your own (see figure 2 to find the best areas for restaurants), except for the ice breaker on Monday and the dinner on Thursday evening in the ISMER courtyard.

Student's presentation and poster:

The format will be the same as last year with a short presentation (PICO) in the morning followed by a poster during and after the coffee break.

PICO presentations:

The PICO presentations should be around 2-3 slides and take no more than 5 minutes. You can see it as a “pitch” for your poster, so it has to be entertaining with just the important elements. As an example, the first slide could be the introduction of the project, the second slide the methods and then, the last slide could show one of the main findings of your research. See [Annex I](#) for the order of presentations.

Posters:

There is no restrictions regarding the size of the posters, however they should fit on a 1mx1m board.

You will present your posters the day of your PICO presentation and you are asked to hang them before your presentation in the corridor of ISMER.

Thesis Committee meetings

See schedule in [Annex II](#). The meetings will occur in the ISMER conference room and rooms O-230, O-266 and P-212.

Special Activities

Bring **sport clothing and footwear** for outdoor activities (hiking shoes and rainproof clothes) as we will have a tour in one of the most beautiful parks of Québec, *Le Parc National du Bic*, on Wednesday afternoon. Please notice that lunch will be earlier that day in order to be at 1:00 pm at the park.
